

# EQUIPMENT SPECIFICATIONS (LIST OF SPECIFICATIONS)

Machine : AI Cooking MaProfessional AI Cooking Machine

TECHNICAL SPECIFICATION SHEET

Category	Specifications (Parameter)
Voltage	220V
Max Output	5000 W
Power Consumption	4500 W
Unit Weight	60 kg
Main Material	Stainless Steel
Heating Method	Electromagnetic Heating Method
Dispenser Materials (for Cooking)	PP, Max 8 ingredients can be set
Material Trays (for Ingredients)	PP, 4 trays can be set

Category	Specifications (Parameter)
Max Capacity	7 kg
Effective Cooking Capacity	16 L
Cooking Pot Coating	Edible, non-stick
Number of Recipes	Cloud & Local Storage
Power Specification	16A, Podcast Connectors Connection
Control Method	Touchscreen & AI Control
Operating System	Android (Deep Development)
Water Treatment	Connected to water supply & sewage

Gears (Power)	Spelliment
Gear 1	1600 W (Intermittent)
Gear 2	2400 W (Intermittent)
Gear 3	3500 W
Gear 4	3900 W
Gear 5	4500 W
