Future Guidance

We plan to open a demonstration model room by July 2026.

An environment where you can experience actual cooking is under preparation. We will announce details as soon as they are decided.

From July 2026, we plan to hold a "Free Regular Seminar (including demonstration)" every Saturday.

We will introduce product features and user methods clearly with demonstrations. (Please inquire if you would like to attend in June)

Also from July, we plan to recruit 1 distributor in 1 area (prefecture) nationwide.

We are looking for partners who rooted in the region and can spread the value of the product. (Please inquire if you are considering this.)

Regarding the Agency for Small and Medium Enterprise Labor-Saving Subsidy Application.

If we handle the application agency, we will request an initial cost of 200,000 yen (excluding tax) for hearing, plan creation, preparation of application documents, etc.
